Living nightmare, known also as living hell is the game that doesn't hesitate to fool you and entertain you with annoying tasks. Living nightmare is one of the oldest and best games in the genre, where there is not much you can do in between the stages. Our game offers you great gaming experience and make sure that you like it once you start playing it. Controls: In the game, you have to use the arrow keys and spacebar to move and jump. You can also press the up/down keys to use actions, but you don't have to worry about that. There are also many other useful keys for you. Features: Great adventure game The game opens with inviting mode and you will be walking through a strange city full of crime. What's weird is that you don't actually know why you are there, or what you are looking for. There are no checkpoints, so you can't go back if you don't like the situation. As you come to the end of the labyrinth, you will be greeted with a task, which you have to complete on your own. It might take some time and eventually you will have no choice but to get into the situation that will release you from this living hell. The game is known for its stealth part. You may have to avoid enemies, collect items, get into the rooms to complete the tasks. You may also have to explore the area and in some parts you will have to jump over the roofs. When everything's done, you are going to end up with an item, which you can use to complete all the stages. You will want to get it because you will need to do it again and again in all the stages. Great gameplay The game has three levels for you to complete each level. The enemies are not easy to handle in the beginning of each stage. You will be facing the weakest enemies in the first level, where you will also face the opponents that are strong enough to kill you. In each level, you will have to complete

the tasks and get an item in a unique situation. Each stage has a set of rules. You will have to approach the scene in a best way. You must be aware of all the things that you might encounter. You will have to make the right decisions and use all the abilities that are available to complete the stage. You can get an item, which will help you in all the
