Your objective in Brick Inventions is to build the biggest and most useful construction and destructive machines. Brick games do not stand still, they are in a constant evolution. The design of Brick Inventions was inspired by modern physics based games and offers a variety of puzzle games along with the multiplayer mode. Challenge your ability to use physics-based thinking, the creation of movements and the detection of movement. Brick Inventions offers an experience you will enjoy playing and will remember for a long time. Why Brick Inventions instead of similar games? While most games that are being developed today are created around the idea of gameplay itself, Brick Inventions is based around the concept of physics. Everything can be destroyed, so that you have to make sure that your creations do not fall apart at the touch of a button. Besides the gameplay, Brick Inventions provides different puzzle game modes that players will enjoy as they always have a puzzle game to solve. That's really different, you say? How about thinking of constructing a house that could withstand a crash of a building and instead destroys any standing robot. Seeing bricks flying in the air due to the collapse of an external wall and then witnessing an explosion from a single brick flying into the air because of the impact of another brick just goes to show that Brick Inventions is completely different than most other games. What about you? Are you ready for the challenge?

JAKARTA, Indonesia—Indonesia on Tuesday banned all new investment in giant coal mines following a major coal leak in the country's western province. Indonesia's environment ministry confirmed it was investigating the spill at the Grasberg mine in West Papua province, one of the world's largest active coal mines. Greenpeace has reported a widespread pollution of waterways in the province. "The government has instructed the Ministry of Environment and Forestry to suspend all new investment in large open-cast coal mining sites," it said in a statement. "The government is monitoring the situation in the impacted areas." In the densely-forested region of Papua, where decades of civil unrest have claimed many lives, the mining of the world's third-largest coal reserves is one of the largest sources of income for the province and its Western Highlands area. The Grasberg mine alone is believed to produce around 100 million tons of coal a year, with the total estimated at between 300 million and 400 million tons a year. It is owned by the Newmont Mining company, which belongs to the world's largest gold miner Newmont

THE MUSIC IS VERY INTENSE IN THE LEADING AND BOTTOM 0.7% OF THE GAME. DOWNLOAD AND YOU'LL LOVELY LISTEN TO THE STEREO.LEVELS ARE NOT DIVIDED. THE ONLY DIFFERENCE IS THE FUEL MONEY. ON LEVEL 1 FUEL IS 500. LEVEL 2 FUEL IS 2,000. LEVEL 3 FUEL IS 5,000. LEVEL 4 FUEL IS 10,000. AND LEVEL 5 FUEL IS 20,000. If you get at least 10,000 on a level then you are awarded one of five lives, and a corresponding decrease in the time limit of the level.Points are awarded for a successful click on a cat, as well as for simply hovering over a cat. When you die a small orange creature falls from the sky and will help you to restart the level if you click on it. If the orange creature reaches the top of the screen, you will lose 10,000 fuel.If you die in a level, you are automatically taken to a purrgatory cat level.You can play free single player mode if you desire. Enjoy Cat Clicker on steam! How To Beat The 5 Levels of Cat Clicker: 1) I, the first time through each level I'd recommend saving all lives, clicking on the first cat that is visible, and making sure that you have as many lives as possible. You will not be penalized for clicking on cats before the time limit if they are still visible after it runs out. I would recommend that you level 2 and/or 3 first as they tend to be significantly easier than levels 4 and 5. Level 2 you should have no trouble with if you level 3 and then play level 4, and then level 5. And if you're afraid of dying, save your game first, click on the orange cat in the sky, and then click on all the cats on the ground. If you get more than 10,000 points, you will be given one of the five lives, and the timer will be reset to 1 minute. If you get 10,000 or more points and don't want to have to wait for the game to overstay its welcome, save your game, click on the orange cat in the sky, and then click on the cats on the ground. If you get more than 10,000 points, you will be given one of the five lives, and the timer will be reset to

icon Sunday, September 20, 2012 This site is a LEGO fan-site, and we take it very seriously. We try to give fair coverage to most popular themes. We publish all LEGO Watchmen, including mini's and storybook's and the like. Please feel free to sign up to our email list and never miss a single post on this site. Saturday, December 25, 2011 Don't worry, these break's of are all fake, but sometimes you have to pick a way to honor the winter holiday spirit and the New Zealand ambassador to the United State's and I guess free enterprise. Below are some of my favorite pieces released in the last year. I tried to link the small set that is tied into the larger set, as to not over-charge the builder who didn't consider the bigger name behind the set. The larger set is average at about 110 dollar. The smaller one that I include are 70 dollar. A great way to build a LEGO kit for the family, but if a set is good enough, it doesn't need to be individualized as a holiday gift. Tuesday, November 29, 2011 Tuesday, November 22, 2011 I am still debating on building this space Oddity and instead grabbing and building this Space Cruiser, but looks like I picked the right the time and saved \$5 during the sales. The oddity has some awesome decals and shell pieces that give it that classic Star Trek Space cruiser feel. It is just as good as the modern looking International class. Wednesday, November 16, 2011 Dorsten is a pen that got all the ink. Thank God for plastic bricks, I guess, as i have a collection of live action and animation pen and inked on decals. I have been using to play with as a Starmaker since before it was as inked. I have a few playsets of these pens. Unfortunately the outstanding pen I have of the bunch are all over my shelf so here is another to add to the collection. These pens mark well, and last surprisingly. They write very steady, and smell musty. That is until the black outs starts seizing every other pen. They are like the relationship between the Mona Lisa and the Cigar. They both have the same look,
