The game is a fantasy action RPG in which, in a vast world, you develop and experience the story of a young hero from the perspective of the final wish of a dying King. The main point of the game is to fight against the shadow that is taking over the world. As you adventure, develop your character, and forge an alliance with other characters, you will gain the power to fight against the darkness that threatens all life. ELDEN RING [The World] Tarnished Lands The Lands Between: An infinite world of amazement and epic adventure. The world of the Tarnished Lands is a seemingly endless landscape of soil, grass and endless sky. The Lands Between serve as a pocket dimension made up of innumerable parallel worlds that have been touched by the realm of evil. In this land, dark shadows plague the land and wield a hidden power known only to the wicked. Your character In the first game, the hero must have a clear goal: to save the world and to save the dying king. But in the second game, your choices have an effect on the world after you have saved the king. Your character's actions will decide the fate of the world and the rest of the story. Characters are destined to die in the game, which will result in changes to the world. So you should make sure you get the right character for the situation. The world of Tarnished Lands The world of the game is split into three sections: The Dark Plains, the Forest of Life, and the Shadowlands. The different maps correspond to three sections of the world. The Dark Plains It is a continent of low mountains and valleys that are inhabited by goblins and orcs. Life expectancy is short, which means that you have to constantly be on your guard against the goblins, orcs and the elements. The dangers in the Dark Plains are different from the dangers in the forest. The player should not always expect to find the same monsters. Character Characters in the Dark Plains are goblins, orcs, and other twisted minions of the Dark Lord. The goblins and orcs are the strongest characters in the Dark Plains. Magician characters can go to the Forest of Life, and the Elf character can go to the Shadowlands, while Wizard characters can go to the Forest of Life and the Shadowlands. The Forest of Life The Forest of Life is a place of life and hope. The trees are full of adventure and secrets. Discover

The present invention generally relates to a hanger for hanging articles, and more specifically, a portable article hanger that can be adjusted to receive objects of different heights and sizes. Hangers are typically designed to hang articles, such as clothing or bags, so that they are not touching the floor. Hangers come in a variety of sizes and shapes to accommodate different articles. However, the size, shape and other aspects of the hanger should not be too large, or otherwise the hanger would be too large to be easily portable and/or hang the article securely. Furthermore, the hanger should be easy to manufacture, assemble, and to carry and use. An essential American story Now playing: Watch this: Microsoft reveals ID for Xbox Live Gold members Microsoft introduced the Xbox Live Gold service at E3 2013. It includes more than 450 Microsoft content (games, TV shows and movies), a cloud DVR and unlimited On Demand access to Netflix, Hulu Plus and Xbox Video. The new Xbox Live Gold membership costs \$59.99 (USD). Microsoft is offering three-month free trials of the service to new customers. Microsoft must have a plan for saving the company. It has to reinvent itself, rather than spending another year using its tried-and-true, dominant image of the Xbox and Xbox 360 to get users to start again. With its deal to sell a \$15 phone to Verizon, the deal for the Surface tablet and Windows 8, and now this game, the company seems poised to make a big leap forward. Microsoft CEO Satya Nadella

**What's new:**

Thank you Rax! The lenticular background is on the Uliana's skins and not the character itself. I only have the maintiles in 3 sizes for my viewers. Rax, on 21 September 2016 - 05:31 AM, said: Looking forward to more these days. Thank you fellow! I've got new music done for Elysia coming up, and I'm pretty excited to share that. Rax, on 19 September 2016 - 08:35 PM, said: Its back! Uliana had a few skin changes, logos and more! It's a shame that Nebulon/Robe arent in this image, but hopefully we will see them in the future soon! EDIT: Just noticed that a NexWorld will be cancelled at the moment we are done reviewing it. There will be one more post by me and that's it. If you signed up, please check your NexWorld logs and also the NexWorld forum to read the cancellation notice. Rax, on 18 September 2016 - 03:17 PM, said: NexWorld was officially announced on 15th of September and I'd like to take the time and announce the cancellation of it! Since it feels a bit early to announce it, I've been attempting to make it through the review and get some feedback from US. And now I feel that it's okay to share it, because I cannot go and make anymore changes to the current review process. If you have a character that you play on NexWorld, please just reroll it and try again. Don't worry, you'll be able to get your Vouches to your old account (I've already emailed the staff to confirm it) and your saved accounts and achievements will be there. We'd like to thank all the players that helped NexWorld get this far! It has been a great ride! I'd like to also do a personal announcement to let everyone know that a half-way trailer of the NexWorld prototype is being released on 17th of September. It will have a discussion as well, so I'd like to encourage you guys to join us! That way we'll try to solve the issues that were brought up in the review process. We'd like to thank the Videogame Excellence Team for their continued support! Having Fun With Friends >> Want to make youtube channels? You can use

Platelet function screening: correlation of flow cytometry with bleeding time and platelet retention studies. The platelet function of 10 outpatients with various types of bleeding disorders (including Von Willebrand's disease, Bernard-Soulier syndrome, thrombasthenia, and uremia) was evaluated by flow cytometric analysis of platelet activation with PFA-100 (Dade Behring) and a fluorescence-based assay (Chesoni and Augusti; INNOVANCE) and by the bleeding time (Roth): hematocrit ratio (HTR) in combination with a retention study (Lubarsky): HTR/retention studies. PFA-100 closure time was comparable between patients and normal controls, but was delayed in all six cases tested by the platelet retention assay, irrespective of the reason for thrombocytopenia. We did not find a clear correlation between the two methods of platelet function evaluation. Of the patients tested by the HTR/retention studies, 19 (91%) had an abnormal HTR, which was reflected by an abnormally short retention time. We conclude that platelet function in patients with bleeding disorders, including those with normal PFA-100 closure times, can be evaluated by a platelet retention assay.

Q: How to order my list by multiple dates? I have a list of events with datetime For example event 1 event 2 event 3 event 4 event 5 event 6 And I need to get all events which happened on the 4th of May between the 6th and the 25th in a list: Result list = event 1,2,3,4,5,6 How should I do this? I've tried this: DateTime minDate = DateTime.ParseExact("2016-05-06", "yyyy
