## What's New in the Adobe Photoshop 2022 ()?

(CNN) — The difference between a temporary and permanent tattoo is the difference between a vacation and a vacation. No matter what your profession might be, a temporary tattoo serves as a constant reminder of that special moment you had at the beach or pool, or in your car, or at an airport. Now there's something to remind you of you "awesome" time you spent at the tattoo parlor. Earlier this year, the French company Crosse & Blackwell launched the "Permanent Inked" program in Japan, where shoppers can now buy temporary tattoos for an extremely limited period of time. "We created a limited program where we are the first in the world to do it," said Martin Crouzat, a spokesman for the company. In the new program, tourists can purchase up to three tattoos from kiosks at three major airports throughout Japan (Tokyo, Nagoya and Osaka) for a temporary period of time, ranging from three days to six months. Customers can be assured that the tattoos they purchase can only be used by them, and they won't fade in time. "The best temporary tattoo has more than your logo," says Olivier Massot, vice president and head of marketing at Crosse & Blackwell International. "It's a design, a story, your memories, your emotions." For those travelers planning to make a big impression on a few local citizens, one of the company's latest designs, "Love," is sure to get the attention of a woman. The company doesn't recommend it for men, because it might have a negative impact on their self-esteem. But it does recommend the "Joie De Vivre" logo, featuring an iconic lady character, to be used as a personal inscription or a signature tattoo. "We think it's also [great] for couples," says Mr. Massot. The temporary tattoo design is a typical shop design, usually a butterfly, a heart or a flower, which is available in several colors and other designs. The company stresses that the tattoo is temporary, and there is no guarantee that it will last for the designated amount of time. The company offers a 90-day warranty for any tattoo that lasts longer than the stated period of time. The company also explains that the quality of the tattoos is not only measured by time, but also by their waterproof and allergy-proof properties. "We
