Elden Ring (Story) The Elden Ring: The author of the original Elden Ring fantasy story, 宫崎英高 (Chingji Wenji, or Feng Ji in hanzi), has said that “the story of the Elden Ring will end with the final Elden Lord.” In 王魂, or Wishing for Years, an additional legend was added. You are a Tarnished Shadow Lord, who has been guided by grace, and approaches the true nature of the Elden Ring with you heart. In this world of good and evil, you will have to oppose the Elden Lords who rush after you. Tarnished, follow them in order to become the true protagonist of this drama.

While life as always fun, we have a wealth of new content ready to download!

We have added many new servers and the servers available have been expanded over two increments. These changes will include a new AI, new maps, new room create, lots of UI changes and the long awaited ATK and ATK improvements.

Our alpha and beta clients have not seen these changes yet, and in order for them to reflect on the server, a server restart is needed. While this is a vital step to ensure the smooth functioning of the servers, it causes significant downtime. A downtime schedule will be included on each update.

We are also working on the level design and enemy movements, but want to get these out once we have full functionality in the server. The final design will likely be heavy on destructible environments.

If you have a subscription on the test servers you can continue to use that subscription on the "v1" relased servers. Alpha and beta players will not be able to host servers and we do not have plans to add those people back into the game (though if you make one they would be happy to host a jump/fallback server). Having said that, the new fixes that are being made to the game are designed to be available worldwide. The servers will be made available for all to play, if they live nearby. Given the disparity in timezones, some players may see the servers at different times.

There will be much more added soon, and we hope you enjoy it!
